MATT PALETTES

When you build your house, you're not just creating a home for your family or a place for friends and special memories, you're also creating a testament to your own taste. It's an exciting and highly personal process, yet choosing the exterior colours and finishes – two of your home's most visible features – is often a little daunting. That's why we created this guide – to offer inspiring, curated colour palettes to help you make confident choices.

Previously the domain of designers and architects, matt finishes have become widely popular due to their warm yet luxurious feel. By diffusing the light for a subtle, contemporary effect, COLORBOND® steel Matt delivers this with sophisticated confidence.

A pleasing counterpoint to this aesthetic, of course, is its performance. While COLORBOND® steel Matt may appear elegantly soft, its advanced technology has been tested in some of Australia's harshest environments.

DUNE® MATT

NATURAL HARMONY

A warm, tranquil colour that has broad appeal and harmonises effortlessly into its surroundings, COLORBOND® steel Dune® Matt offers a natural, earthy feel, no matter what environment it's used in. Subtlety is the main feature of this alluring palette, offering just a blush of colour, and when co-ordinated effectively with light textures, the result is purely enchanting. It will complement both natural and contemporary building materials to create a feeling of warmth and understated style. The more vibrant accents could also be used for standout features such as a front door or teamed with a feature wall to stunning effect. COLORBOND® steel Dune® Matt is extraordinarily versatile, being adaptable to a wide range of landscapes from the hectic inner city or the bustle of developing urban areas, to the tranquillity of the Australian bush and coast. This palette's appeal lies in its warmth and subtlety; a timeless reminder of how our homes can be our haven.

MISTY AND DIFFUSED

The diffused misty white of COLORBOND® steel Surfemist® Matt provides any building with an anchor of strength and soft sophistication. The effect is extremely contemporary yet beautifully simple. This colour palette, with its natural layering of mellow accents and subtle undertones, can create a subtly beautiful effect.

COLORBOND® steel Surfemist® Matt effortlessly evokes a coastal palette or can also be used to create contrast in urban areas where a standout presence amongst typically darker tones is desired. Teamed with considered landscaping of natural stone and Australia's native soft grey-blue foliage, COLORBOND® steel Surfemist® Matt offers a simple, light, confidently neutral look and feel that is, simultaneously, highly fashionable and quietly evocative. Its delicate, natural personality also allows for experimentation with a range of different accent colours, so you can truly express your personality with COLORBOND® steel Surfemist® Matt.

SURFMIST® MATT

SHALE GREY™ MATT

BEACHY TRANQUILLITY

Greys have long been lauded as some of the most versatile and designer-friendly colours available. So it's little wonder the smooth tones of COLORBOND® steel Shale Grey™ Matt add instant visual appeal as well as graceful tranquillity to your home as it evokes the effortless beauty so often found in Australia's unique natural environment.

Fresh, light, extremely versatile and highly complementary to a range of accent colours, COLORBOND® steel Shale Grey™ Matt's popularity is highly deserved. Whether layered with brushed steel, recycled timbers, aged brickwork, or used solely by itself, its neutral, natural refinement creates a relaxed, easy going feeling that beautifully suits all architectural styles, whether they be in country, coastal or city environments.

Our Shale Grey™ Matt is a truly neutral classic that has an honest and impactful modernity, while also offering a perfect backdrop for the exciting splashes of colour that reflect your own personality.

DARK AND HANDSOME

COLORBOND® steel Monument® Matt is the deepest hue in the range. It displays a dramatic, dark solidity that acts as the perfect backdrop to allow bold, brilliant colours to really pop when used to highlight architectural features and details. Moreover, COLORBOND® steel Monument® Matt is a colour that is truly enhanced by its soft, contemporary matt finish. When teamed with similarly strong materials like exposed dark charcoal bricks, grey tinted glass, black powder coated finishes or heavy, solid timbers, COLORBOND® steel Monument® Matt creates a feeling of solidity and contemporary sophistication. The result of using COLORBOND® steel Monument® Matt can be surprisingly subtle or openly dominant, depending on the application within the landscape, and also the effect of changing ambient light. In the inner-city, this palette can quietly merge with its neighbours, while in rural setting this deep hue will stand out brilliantly amongst the green foliage and natural earth tones.

MONUMENT® MATT

BASALT® MATT

MOODY COOL

The depth of colour in COLORBOND® steel Basalt® Matt conveys a true sense of drama and sophistication. Timeless, refined, neutral and striking all at once, this classic hue is perfectly enhanced by its elegant matt finish. Its soft, tactile appearance invites touch, while at the same time stylishly declaring its strength.

When power and impact are required for a house or building in a landscape or cityscape, COLORBOND® steel Basalt® Matt is an exciting foundation. Co-ordinating its dramatic presence with other aligned building materials like slender bricks, charcoal stained timbers, tinted glass or roughly textured concrete walls, the sum total is a commanding declaration of grace and design.

Don't be afraid of creating a statement like this; often it's the buildings that provoke a genuine response that stand the test of time. COLORBOND® steel Basalt® Matt delivers a versatile, proven look that evokes strength, calm and definitive urban cool.

COLORBOND® STEEL MATT

Australia's ancient, weathered landscape features colours like no other, and the COLORBOND® steel Matt range has been thoughtfully designed to enhance our natural surroundings, allowing your new home to either blend in or stand out. So we encourage you to consider the feeling you want to create, imagine these colour palettes as they are, or adjusted to your individual desires, and enjoy your colour journey with COLORBOND® steel Matt.
